Trade & Training

Accurate measurement.
Compliant production.

Instruments, metrology, custom machines and training

Company presentation 2026

ISO 9001:2015 certified
RoyalCert – certificate no. 09156/NOR09U

Four divisions serving your quality

Northside Trade & Training

Accurate measurements, compliant equipment and competent teams: NTT brings these requirements together under a single point of contact, organised into four divisions.

01

Equip

Measuring instruments, test equipment and PPE, available from stock.

02

Guarantee

Calibration in accredited laboratories, tests and reports ready for your audits.

03

Design

CE-marked custom machines, automation and turnkey laboratories.

04

Train

ISO, IATF, IPC and ESD training and consulting from an approved training center.

Well equipped, always compliant.

Northside
Trade & Training

Since 2020, NTT has supported Tunisian and international manufacturers with a complete offering: measuring instruments, calibration, special machines and training. A single point of contact, and teams with more than 20 years of experience in industry and EMS.

20+

years of team experience in industry and EMS

600 m²

of manufacturing workshop and storage area

100,000+

product references managed

100+

machines and solutions installed at customer sites

ISO 9001:2015 certified · **Approved training center** · **CE-marked machines** · **Technology watch**

Northside Trade & Training

CERTIFICATE

Certification No : 09156/NOR09U
Initial Certification Date : 29.12.2025
Recertification Date :
Issue Date : 29.12.2025
Expiration Date : 28.12.2028
Revision Date / No : 29.12.2025/00

This is to certify that the Management System of:

NORTHSIDE TRADE AND TRAINING

A03, 1 Etage Ettaalok Nour Jaafer Raoued 2081, Tunisie

Northside Trade & Training

has been assessed and found to be in accordance with the requirements of:

ISO 9001:2015
Quality Management System

Scope:
EN:Trade in measuring and control instruments, PPE (personal protective equipment) and electrical and electronic equipment; and preparation of analysis and test reports for the industrial sector.
FR:Commerce des instruments de mesure et de contrôle, EPI (équipements de protection individuels) et Équipements électriques et électroniques; et élaboration de rapports d'analyse et d'essais destinés au le monde industriel

WHAT CERTIFICATION GUARANTEES YOU

- ✔ Controlled processes, from quote to delivery
- ✔ Full traceability of your products, tests and reports
- ✔ Evaluated suppliers and continual improvement

Serving your sector

Automotive

Steering wheel defoaming and deburring, drying ovens, inspection

Glass and packaging

Thermal shock test benches, PET and glass volume inspection

Food processing and fishing

Fish scaling, cutting tables, fishing net washing

Electrical and electronics

Electrical safety, calibrators, IPC and ESD training

Non-destructive testing

Penetrant testing machine, FLUXO P502 fluorescent penetrant

Laboratories and quality

Fit-out, calibration, mechanical testing

Our four divisions

Equip · Guarantee · Design · Train

Measuring and inspection instruments

DIVISION 1 · EQUIP

The right instrument for every tolerance, from stock and recommended by our engineers.

- Dimensional, 3D and non-contact inspection
- Electrical measurement, calibrators, power supplies
- Force, torque, hardness, weighing
- Temperature, humidity, data logging

YOUR BENEFIT

A single supplier for all your measuring equipment, with recognised brands and fast delivery from our stock.

Materials testing equipment

Northside Trade & Training

ZWICKROELL

Universal testing machine
Tension and compression

GIULIANI

Rub fastness tester
Textile and leather testing

CAIMI

Leather softness tester
Material inspection

BAREISS

Digital durometer
Shore A, B, C, D…

For your laboratories: mechanical testing, inspection of raw materials and finished products.

Standards, weighing and recording

Northside Trade & Training

MASS AND WEIGHING

Test weights and balances
Class E, F and M weights, KERN balances

CRM

ISO 17034 reference materials
Solids and liquids: Cannon, LGC, Paragon

GRAPHTEC · TZONE

Recording instruments
Graphtec and TZone TT19 data loggers

DASQUA

Measuring tools and dimensional inspection
Calipers, class 0 and 1 gauge blocks

Also: Elcometer viscosity cups, Meatest calibrators, FLUXO penetrants.

Personal protective equipment

Northside Trade & Training

DIVISION 1 · EQUIP

Certified PPE for every workstation: workshop, welding, cold and heat.

- Protective gloves EN 388, EN 407, EN 511
- Safety footwear ISO 20345, ISO 20347
- Welder protective equipment
- Anti-fatigue mats and ESD mats

YOUR BENEFIT

Teams protected by PPE that complies with the standards, chosen according to the real risk at each workstation.

Metrology: calibration and testing

DIVISION 2 · GUARANTEE

Calibrated, traceable instruments, ready for your customer audits.

- Electrical: AC/DC, energy, power, LCR
- Mass, flow, pressure, temperature, humidity
- XRF alloy analysis, X-ray inspection
- Climatic testing, metallographic cross-sections

YOUR BENEFIT

Certificates from ISO/IEC 17025 accredited laboratories, traceable to national and international standards, recognised in IATF 16949 audits.

Custom special machines

Northside Trade & Training

DIVISION 3 · DESIGN

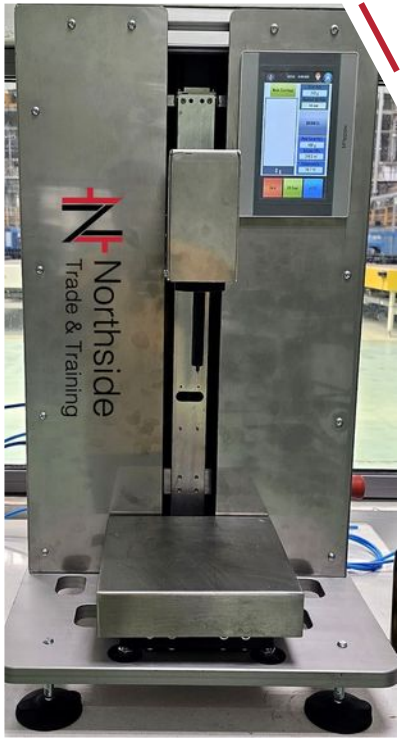

You imagine it, we build it. Custom machines, built to your specifications.

- Automation of manual operations
- NDT (non-destructive testing) machines
- Inspection stations and test benches
- Deburring, defoaming, washing
- Drying ovens and food processing

YOUR BENEFIT

A CE-marked machine: risk assessment, mechanical and electrical safety, EMC and complete technical documentation.

Our design office and workshop

Northside
Trade & Training

Press brake in our workshop

Design office
Specification review and custom design.

600 m² site
Manufacturing workshop and storage area.

CNC machining
Precision tooling and repeatable mechanical parts.

Laser cutting
Stainless and carbon steel sheet metal, exact dimensions.

Bending
Custom frames, guards and enclosures.

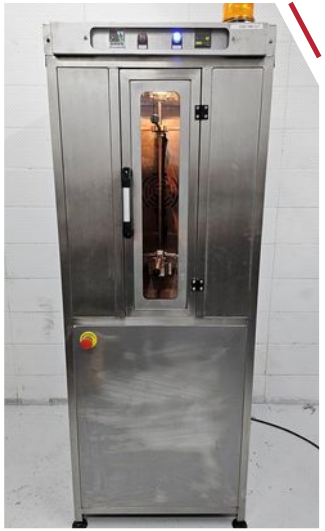

Expert team
Highly qualified engineers and technicians.

Our projects

Northside
Trade & Training

Steering wheel defoaming
Automotive

Case drying oven
Automotive leather goods

Washing booth
High-pressure cleaning

Pot cleaning
Paint

Non-contact inspection
In-line metrology

Our projects (continued)

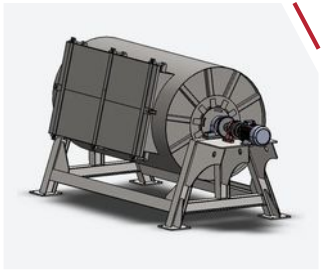

Penetrant testing machine
Non-destructive testing

Drinking fountain
Stainless steel facility equipment

Fish scaling
Food processing

Net washing
Fishing and aquaculture

Canteen table
Custom stainless steel furniture

YOUR PROJECT, OUR EXPERTISE
Each machine is designed to your specifications by our design office, built in our 600 m² workshop, then delivered CE-marked with commissioning, training and follow-up.

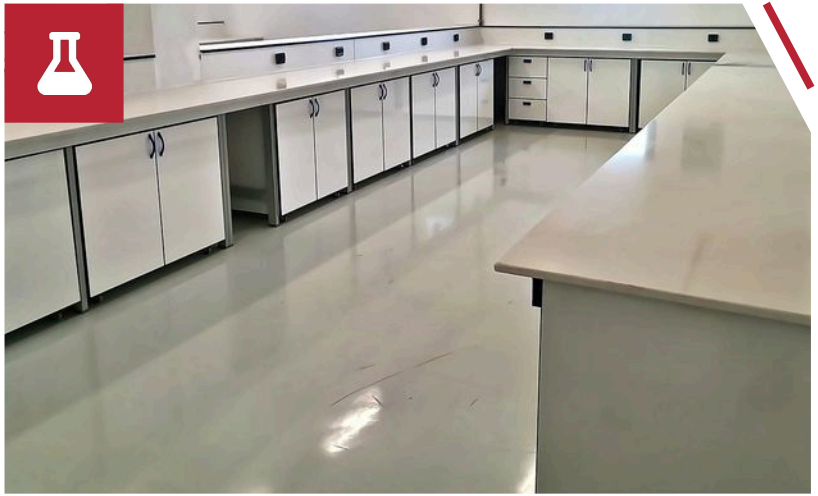

Laboratories and technical furniture

Northside Trade & Training

DIVISION 3 · DESIGN

Functional, safe laboratories, designed and installed turnkey.

- Benches, cabinets, fire-resistant safety cabinets
- Fume hoods, extraction hoods, biosafety cabinets, extraction arms
- Safety showers and eyewash stations
- Mobile drawer units and custom furniture

YOUR BENEFIT

Durable custom furniture, for example 20 mm extruded quartz stoneware worktops, highly resistant to chemicals.

Project: turnkey laboratory

Benches, base cabinets and technical upstands

WHAT WE DELIVERED

- Benches with a continuous worktop
- Base cabinets and mobile drawer units
- Power sockets built into the upstand
- Designed, built and installed by NTT

Training and consulting

Northside
Trade & Training

DIVISION 4 · TRAIN

Your teams trained in the standards required by your customers.

- Quality: ISO 9001, IATF 16949, ISO 13485
- Laboratories: ISO/IEC 17025
- Electronics: IPC-A-610, IPC-A-600, J-STD-001
- ESD protection: EN 61340-5-1

YOUR BENEFIT

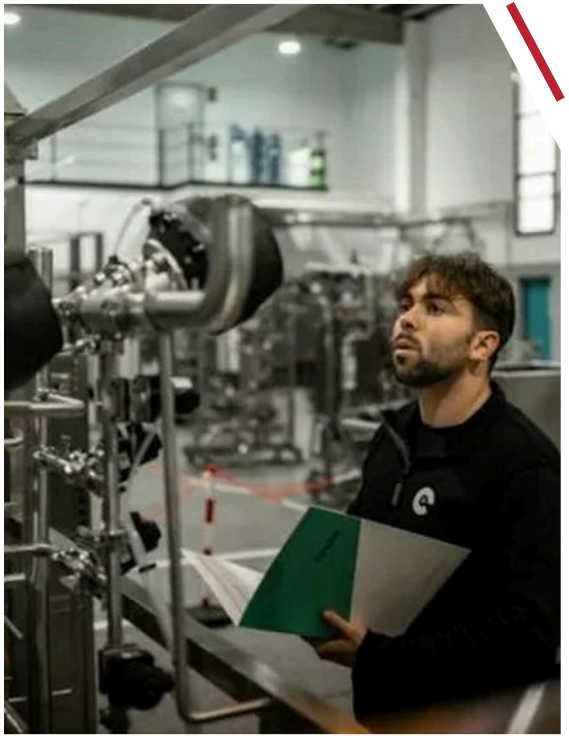

A training center approved by the Ministry of Vocational Training and Employment, with on-site sessions tailored to your lines.

Why choose NTT

One partner, from measurement to machine.

Our strengths

Certified quality
Management system certified to ISO 9001:2015 by RoyalCert.

20+ years of experience
Teams from industry and EMS who speak your language.

Innovation and tech watch
Continuous technology watch, for solutions that are always up to date.

Real stock, fast delivery
More than 100,000 references managed, delivered from our stock.

Local manufacturing
In-house design office and workshop: CNC, laser, bending.

Documented compliance
Certificates, CE declarations and documentation for your audits.

Our five-step approach

Northside
Trade & Training

1

Listening
Analysis of your needs, tolerances and constraints.

2

Proposal
Technical solution and detailed quote, with alternatives.

3

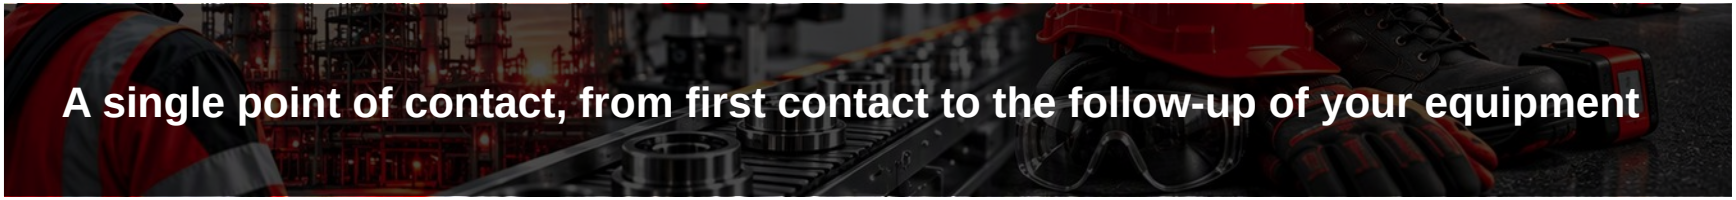

Execution
Delivery from stock, manufacturing or on-site installation.

4

Compliance
Calibration, CE marking and documentation for your audits.

5

Follow-up
User training, support and after-sales service.

Recognised partners

Northside Trade & Training

Instrument manufacturers and accredited laboratories: we rely on proven brands.

Trescal
Accredited calibration

KERN & SOHN
Balances and weighing
